

PP2 Memory game

External user's goal:

The site's users want to play an online game that challenges their ability to memorize pictures. To get that challenge, the user should be able to choose some level of difficulty.

Site owner's goal:

The site's goal is to provide an online game which challenges the minds of the users.

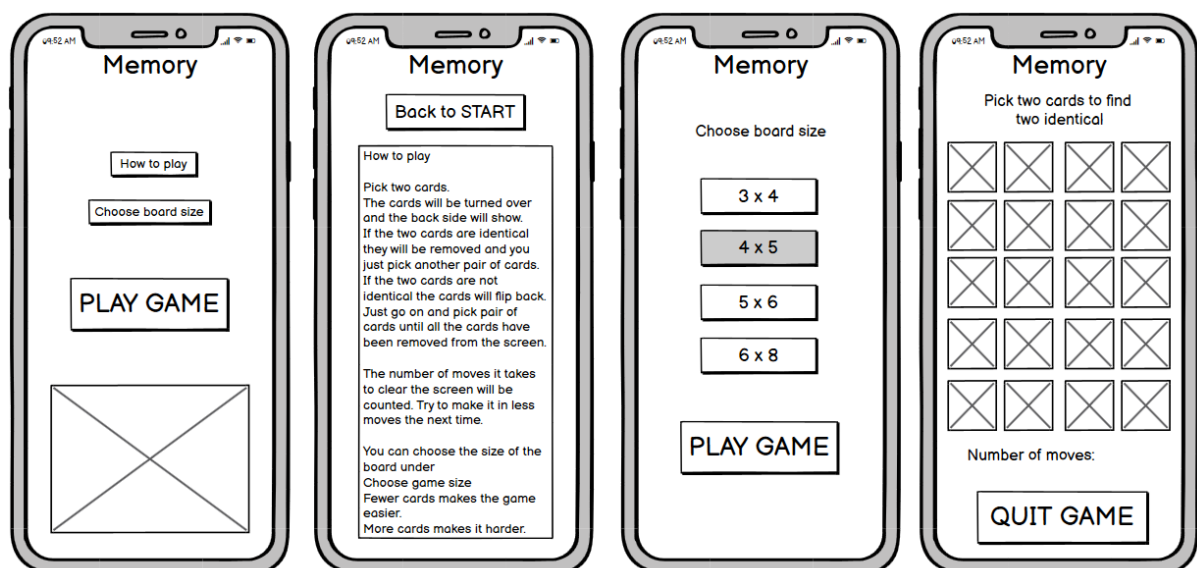

User Stories

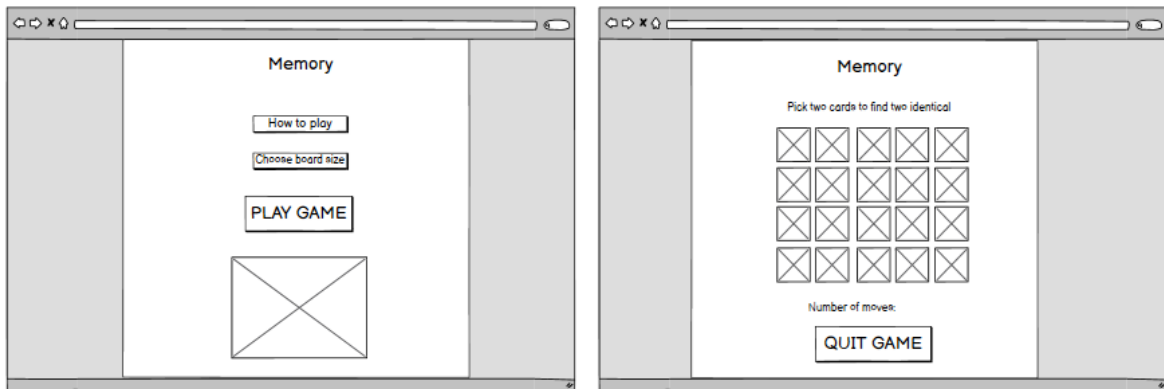

First Time Visitor:

It should be easy for a first time visitor to see the purpose of the game and to intuitively figure out how it is played or find out how.

Returning Visitor:

As a returning visitor, I want to be able to choose a harder, or easier, level of the game. I also want to be able to play the game without detours.

Load Home page

- Add event listeners to buttons
